Inopak® White Antibacterial Healthcare Soap

Mild Antimicrobial Healthcare Soap is a natural, non-synthetic based white soap containing .6%PCMX for the professional who washes frequently and requires mild cleansing agents, conditioners and anti-irritants. Healthcare is a germ killing hand wash that protects against germs without stripping the hands of moisture, thereby eliminating chapping. Healthcare is effective against transient bacteria in both hard and soft waters. It cleans thoroughly, yet still has a very low skin and eye irritation level allowing frequent washing without the skin losing its natural oils.

Item	Size	Color	Pack
INO5013L1000	1000 ml	White	8/cs

Inopak Inoderm® Style Soap

An antibacterial hand soap containing .3% PCMX. This ingredient is effective against bacteria by suspending microorganisms during hand washing, destroying them and permitting them to be washed off. Effective in killing a broad spectrum of germs by inhibiting the re-growth of bacteria that remains on the skin after washing. Mild enough to allow frequent washings without the skin losing its natural oils. Contains moisturizers and skin conditioners to keep hands soft, smooth and refreshed.

Pitt Plastics Mini-Roll Can Liners

The unique blend of first grade high molecular weight High Density Polyethylene and LLDPE resins is puncture resistant, possesses impressive film strength and performs under temperature extremes of -40°F to 212°F. The high molecular weight of the High Density Polyethylene resin allows us to produce can liners that are approximately one-third the weight of traditional can liners with the same capacity. A lower weight bag of superior strength means less material is being used in production, making the High Density Mini-Roll a good choice when searching for a product sensitive to source reduction responsibility. Perforated for easy dispensing.

Aluf Coex Supertuff™ CXP Bags W/Microban®

Go Green! Manufactured utilizing recycled material of which a minimum of 10% is certified post consumer content. This uniquely designed LEED applicable product provides an opportunity to utilize a liner that supports municipal, state and federal LEED initiatives. Utilizing a proprietary tri-laminate manufacturing process, these liners are designed to exceed industry requirements, while using less resin than other competitive heavy gauge bags. CXP weighs less, outperforms and is 100% recyclable. Keeping with the 4 R initiative, we Reduce the amount of material required to make the bag, we Reuse all internally generated waste, we make products that are 100% recyclable and we Reclaim post consumer as well as post industrial waste for our everyday manufacturing requirements. Microban® antimicrobial protection provides an added benefit by inhibiting the growth of odor causing bacteria on the outside and inside surfaces of the bag. Meets EPA CPG - Comprehensive Procurement Guidelines.

Cyclone-D™ Diamond Floor Pads

400 Grit pads repair and remove scratches from the unpolished concrete, prepare the surface for lighter grits. For heavy-duty cleaning applications of worn concrete or cement-based terrazzo floors. 800 Grit pads remove scratches and prepare floor surface for micro-polishing. The starting point for all floor types, except concrete. 1500 grit pads continue to hone and sine the floor surfaces, and leave the surface prepared for the final steps of the polishing process. 3000 Grit pads effectively polish to a wet-look and should be used for daily maintenance. This step effectively maintains a high gloss and produces a clean, safe and shiny floor. Give life to dull, worn out floors and transform them into clean, glossy and brightly polished floors. Pads contain wear indicators, making it easy to determine when to replace them.

Removes burned on grease and food from ovens and grills.

Item	Size	Pack
AUS1800	Gal.	4/cs

Break-Up® Professional Fryer Boil-Out

Regular use of this product enhances the characteristics of equipment and improves the quality of fried food, by removing accumulated grease build-up, allowing shortening to stay fresher and work longer in clean equipment.

Low-foaming formula degreases/cleans food service fryers, while preventing boil over. Heat and chemical action combine to penetrate, emulsify and clean away built-up, carbonized grease. Eliminates the need for neutralizing. Portion control pouch helps simplify product handling, eliminates waste and control cost. Non-corrosive. Contains no phosphates. NSF A8 Registered.

International Paper Ecotainer™ Hot Cups
The ecotainer™ hot cup provides a more environmentally sensitive alternative to traditional disposables. Sourced from fully renewable resources, these cups use a corn-based plastic as a moisture barrier rather than a petro-chemical. This PLA-based coating also makes the cup compostable in municipal and commercial composting facilities. Your customers's won't be able to tell a difference, but the environment will.
